Komal and Tim—

Thanks for your notes. Yes, EPA has had a discussion with Zach Freeze and Ashley Hall. The purpose of our chat was for the agency to gain a better understanding of Walmart's policy and to share some of the timing, workload, and regulatory issues that EPA would need to consider if company's were to submit label amendments for EPA review and approval. The information in the attachment is consistent with the information Walmart discussed with us.

**Subject:** Follow-up to meeting re Walmart

Good afternoon,

Thank you for taking the time to speak with us last week regarding Walmart's Chemical Policy. As discussed, I want to identify the individuals that ACC has spoken with at Walmart.

Last month, ACC met with Zach Freeze, Senior Director of Strategic Initiatives in Walmart's Sustainability Office, to clarify many of the policy's ambiguities. We also have had conversations with Ashley Hall also of the company's sustainability office.

Rick, it would be helpful to know who in Walmart you have spoken with and whether you have received any information that is inconsistent with or contradictory to the information we received as outlined in the attached document.

Thanks and best regards,  
Komal
